Dear George,

I hold the mineral lease on Utah State school section
32, T. 27 S., R. 23 E., ML29272.

As required by the state, I am notifying you that I
will be mining underground on a small portion of the section
for possibly the next year. There is bare sandstone where
we will be mining, so it will not hurt grazing.

Sincerely,

Philip F. Gramlich
